DUMPING VERSATILITY.

> *RUGBY ELIMINATOR MD*

////////////////////
MULTI-DIRECTIONAL DUMPING OVERCOMES JOBSITE OBSTACLES.

Constricted jobsites that make rear dumping difficult don't require desperate measures. They require the Rugby Eliminator MD. By combining side and rear dumping capabilities, operators can achieve pinpoint load placement and greater functionality in the tightest workspaces.

ELIMINATOR MD

PRECISION DUMPING IS HERE.

Location is everything. You need to dump your load precisely where it's needed. Eliminator MD makes directional dumping easy with one-lever control and standard tailgate operation that controls both rear and side release.

Eliminator MD options for 2-3 and 3-4 yard capacity models include:

- Cabshields (1/4) standard and tall
- Standard vertical side and tailgate braces
- 10 ga steel ends and 7 ga steel floor
- 12 ga fold-down passenger side
- 7 ga dump through driver's side
- 55° side dump angle and 46° rear dump angle

STANDARD FEATURES:

- 10, 12 ga construction
- Side design with fully boxed dirt-shedding top rail and sloped bottom rail for improved self-cleaning
- Double-walled rigid sides with vertical braces
- Single-walled fold-down sides with vertical braces
- Pockets for 6" side boards increase load capacity
- Seamless one-piece front body features triple-bend top rails for long-term durability
- Stacked understructure consists of 5" structural long members overlaid with 3" structural I-beam crossmembers nominally spaced 16" (12" optional) apart
- Standard 1/4 cabshield with viewing window
- Full height corner posts with rear surface sloped aids in tailgate closing
- Tailgate features double-walled panel design with fully boxed dirt-shedding top and bottom rails
- Standard 10 ga floor
- Board pocket design aligns with cabshield and allows the use of tapered side boards to increase capacity when hauling lighter loads such as brush, firewood and mulch

MULTI-DIRECTIONAL HOIST SYSTEM

A unique hoist system delivers multi-directional dumping capability for the Eliminator MD dump body.

PATENTED EZ-LATCH™ SYSTEM

Designed for easy body access, our industry-leading latch system allows quick opening and slam-lock operation with a cam action that draws in upper tailgate pins.

ELIMINATOR MD 2-3 YARD BODY

Body Length (inside)	9'	11'
Body Capacity	2-3 yd ³	2-3 yd ³
Hoist Capacity Rear/Side	10.9/9.6 T	8.6/9.6 T
Side Height	12.5"	12.5"
Tailgate Height	18.5"	18.5"

ELIMINATOR MD 3-4 YARD BODY

Body Length (inside)	9'	11'
Body Capacity	3-4 yd ³	3-4 yd ³
Hoist Capacity Rear/Side	10.9/9.6 T	8.6/9.6 T
Side Height	17"	17"
Tailgate Height	23"	23"

Note: While the addition of a taller side board allows for some additional capacity, you must follow the maximum weight capacities of your body and hoist. All specifications are subject to change without notice.
