

# PRO PLUS® HD STRAIGHT BLADE SNOWPLOW

“

## THERE'S NO JOB TOO BIG FOR A TRUE PRO.

Make the most of the Class 4 to 6 trucks in your fleet with a plow that's uniquely qualified to handle the workload. The WESTERN® PRO PLUS® HD snowplow lets you make short work of large parking lots and local streets. Forget business cards—distinguish yourself with the clean pavement you leave behind when using our heaviest-duty plow.

MORE JOBS. **DONE FASTER.**

# PRO PLUS® HD STRAIGHT BLADE SNOWPLOW

## HEAVY-DUTY FEATURES FOR A HEAVY-DUTY PLOW

### REINFORCED FOR CLASS 6 POWER

Eight vertical ribs provide structural reinforcement, ensuring proper alignment and reducing stress on the overall plow assembly.

### HEAVY-DUTY 10' STRAIGHT BLADE

The 34" tall, 11-gauge, powder-coated steel moldboard is 10' wide and designed to stand up to the extra demands of heavy-duty commercial and light municipal snowplowing.

### FLEET FLEX ELECTRICAL SYSTEM

Finally, true fleet interchangeability. The same CabCommand hand-held or joystick control can operate many of our UltraMount® and UltraMount® 2 system mounted plows on any truck at any time, and includes programmable "soft-stop," "one-touch" float and the SECURITY GUARD™ anti-theft system.

### FEATURED ACCESSORIES

#### CARBIDE CUTTING EDGE

Protect your investment—even on fast passes and rough roads—with a 1/2", abrasion-resistant, carbide cutting edge. It provides extra wearability by increasing the surface area at the point of contact.

#### BLADE ANGLE STOPS

Protect your plow by ensuring heavy loads are distributed evenly. Made of reinforced, 316", high-strength steel tube, blade angle stops reduce stress and wear on heavy-duty plow blades.

#### RUBBER DEFLECTORS

Available in 10" and 18" sizes, our 2-ply rubber snow deflectors include bolt-on steel plates to ensure proper positioning of the deflectors to keep the view clear and clean as you focus on getting the job done.
