

SEALED PARTITION

DEJANA[®]
Truck and Utility Equipment

The Dejana Sealed Partition safely separates the driving area from the cargo area.

AVAILABLE FOR:

- Ford Transit Connect
- Nissan NV 1500
- Mercedes Metris
- RAM ProMaster City
- Nissan NV 200

- New design seals all potential channels from fumes and spills
- Provides climate control in the cab area, as well as noise reduction from the cargo area
- Lightweight fiberglass partition weighs only 27 lbs
- The floorboard seal of the bulkhead and cargo floor creates a spill proof seal that prevents liquids from entering the cab
- Installation does not require any modifications of OEM equipment
- Optional Lexan window available (single & double windows available)
- Optional 54 CFM powered rear vent creates negative pressure in the cargo area

PERFECT FOR:

HVAC

OIL & GAS

PEST CONTROL

PAINTING

MAINTENANCE
