## Notes:

1. Inside usable lengths are based on rear barn doors and an 8" cab setback wall; subtract 2 1/2" for a roll up rear door.
2. Outside height dimensions include the roof crown but do not include the body long sills or chassis sleeper pads.
3. Roll up rear door will protrude approximately 1" to 1 1/2" into the top of the door opening when in the up position.
4. Calculated weights based on a generic standard body with a pine floor, aluminum roof panel, and roll up rear door. All weights +/- 7%.
