

DuraBOX

Dejana's DuraBox Bodies are designed for cab/chassis applications and have been engineered with a variety of heavy-duty features to provide years of dependable service. A wide range of sizes and configurations are also available to fit almost any chassis requirement from 10' to 26' in length and up to 102" of interior height.

DuraBox Bodies are available as either aluminum sheet and post (up to 26') or FRP (up to 24'). The aluminum design features .040" pre-painted aluminum sheet with galvanized "Z" posts on 16" centers, 2" spacing on seams, and 4" on ribs. Fiberglass Reinforced Plywood (FRP) sidewalls are also available that provide a smooth, clean exterior look that's great for graphics.

Units come standard with a 10" aluminum diamond plate radius to protect the front edge from damage and heavy-duty extruded aluminum corners. Rear posts are manufactured with 4" x 5" heavy-duty 12 Ga. steel that is specifically designed to accommodate railgate and liftgate installation.

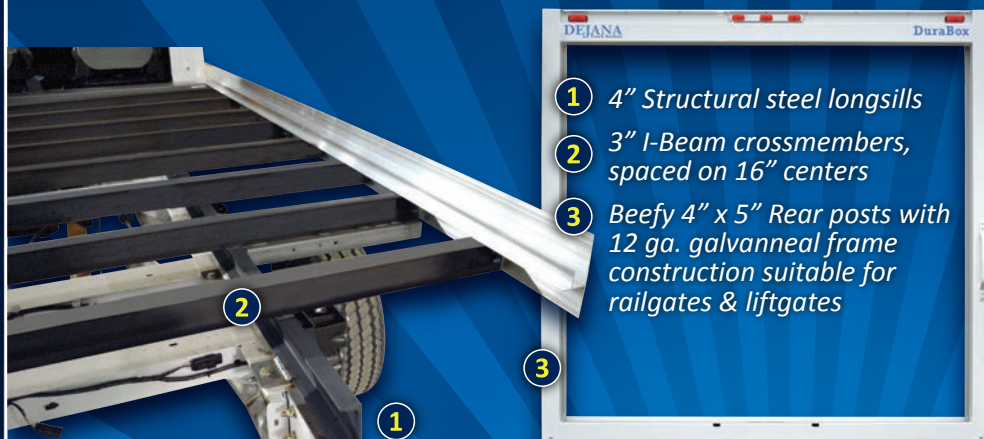

Extreme duty composite roll up rear door
with stainless steel/ aluminum hardware
and 1" heavy-duty rollers

Full width drop-step bumper

Optional sliding ramp

What Makes a Dejana DuraBOX Outlast the Competition...

Standard Features Engineered for Maximum Strength and Durability

- One piece aluminum roof panels, glued with an aviation grade adhesive.
- 4 Bow ladder rack (Optional)

- .040" pre-painted aluminum sheet with galvanized "Z" posts on 16" centers.
- 2 bolts into the extrusion to the I-beam for maximum rigidity.
- 2" rivet spacing on seams and 4" on ribs

- 10" diamondplate front radius to protect from branches and debris.
- 5" radius aluminum corner castings

- 2x6 tongue & groove pine (standard); Shiplap laminated hardwood floor (Optional)
- Floor flush with end plate
- Integral drain trough

Other Standard Features:

- Extreme duty composite roll up rear door.
- Full width drop-step bumper
- Anti-sag roof bows on 24" centers
- 1/2" plywood front wall
- 3/8" plywood side walls
- Complete underbody undercoat
- Grab handles passenger and driver side
- Incandescent marker lights
- Exterior lights meet FMVSS
- Dome light with switch in body

Popular Options:

- Fiberglass Reinforced Plywood FRP
- Rear & side barn doors
- laminated hardwood floor
- Translucent roof
- 4 bow ladder rack
- Galvanized catwalk
- Sliding ramp
- 12" Rear crossover mirror
- Backup alarm
- 7 Horizontal wood slats in lieu of plywood walls
- 12" Apitong scuff plate
- 23" Threshold Plate
- Lift gate (See sales rep for applicable model)

Length Dimensional Data	10'	12'	14'	16'	18'	20'	22'	24'	26' (FTR Only)
Exterior Length	10' 5"	12' 5"	14' 5"	16' 5"	18' 5"	20' 5"	22' 5"	24' 5"	26' 5"
Interior Usable Length	9' 9"	11' 9"	13' 9"	15' 9"	17' 9"	19' 9"	21' 9"	23' 9"	25' 9"

1) Inside usable lengths are based on rear roll up doors; add 2 1/2" for rear barn doors.

2) Outside height dimensions include the roof crown but do not include the body long sills or chassis sleeper pads.

3) 102" wide bodies on NPR-HD, NPR-XD, NQR, NRR chassis require that the mirror brackets be modified at the port or by the dealership.

4) On NPR Diesel <= 14k GVW completed frontal area cannot exceed 79.9 sqf. Area >79.9 sqf to 84.8 sqf requires air roof fairing.

Height & Width Dimensional Data		Body Height & Width		Rear Door Opening	
Body Model	Outside Ht.	Inside Ht.	Outside wd.	Inside wd	Width Height
