DuraCUBE®

Dejana's DuraCube® Bodies are designed for cutaway applications and are available for both Single Rear Wheel (SRW) and Dual Rear Wheel (DRW) chassis. SRW body styles are available in 10' & 12' lengths and DRW body styles are available in 10', 12', 14', 15', 16' and 17' lengths. There are seven models of models to choose from with inside heights up to 96".

Our DuraCube Cargo Van comes standard with a ½" FRP front wall and an interior cargo to cab access door. Wind faring for stand-up walk through or attic front is also available as an option on the 84" high body.

The DuraCube Cargo Van is available as either aluminum sheet and post or FRP. The aluminum design features .040" pre-painted aluminum sheet with galvanized "Z" posts on 16" centers, 2" spacing on seams, and 4" on ribs. Fiberglass Reinforced Plywood (FRP) sidewalls are also available that provide a smooth, clean exterior look that's great for graphics.

*SRW; Shown with Optional Attic

What Makes a Dejana DuraCUBE® Outlast the Competition...

Standard Features Engineered for Maximum Strength and Durability

- 1 4" Structural steel longills
- 2 3" I-Beam crossmembers, spaced on 16" centers
